

# Mariner 40mm "Genta"

Care Instructions + Feature Guide | SKU: GENTA | Built for the life you live.

## Owner Guide

This guide covers the features, operation, and care of this Griffith timepiece, with emphasis on mechanical handling and proper long-term maintenance.

## Watch Specifications

| Specification    | Detail                                     |
|------------------|--|
| Case Diameter    | 40mm                                       |
| Movement         | NH35A Automatic                            |
| Dial             | Blue textured dial with horizontal pattern |
| Bracelet         | Integrated stainless steel bracelet        |
| Bezel            | Brushed bezel with polished transitions    |
| Date             | Date window at 3 o'clock                   |
| Water Resistance | 10 ATM                                     |

## Key Features

- Integrated sport-luxury design language
- NH35A automatic movement
- Manual wind capability
- Hacking seconds
- ~41-hour power reserve
- Applied indices and textured blue dial

## Movement + Operation

| Topic            | Instruction   |
|------------------|---|
| Movement         | Automatic three-hand movement with date, selected for reliability and daily wear.                               |
| Starting/Winding | Wind the crown clockwise approximately 15 to 25 turns before wearing. Normal wrist motion helps maintain power. |
| Setting the Date | Pull the crown to the first position and rotate gently until the correct date appears.                          |
| Setting the Time | Pull the crown to the second position, set the time, then push the crown fully back in.                         |

|                  |  |
|------------------|--|
| Calendar Caution | Do not change the date during the changeover window, generally 9:00 PM to 3:00 AM. |
|------------------|--|

## Care Instructions

- Avoid harsh chemicals, solvents, perfumes, and cleaning agents near the case, crystal, strap, and gaskets.
- Keep the watch away from strong magnetic fields, severe shock, and prolonged extreme temperatures.
- Wipe the case and crystal with a soft dry microfiber cloth after wear.
- Leather and suede straps should be kept as dry as possible; allow them to air dry naturally if damp.
- Rubber and stainless bracelets may be wiped down after sweat or water exposure, then dried thoroughly.
- Water resistance is not permanent and can be affected by impact, age, gasket wear, and crown position.
- Never operate the crown, chronograph pushers, or calendar correctors while the watch is wet or underwater.

## Water-Resistance Notes

Listed water resistance: 10 ATM. Water resistance ratings describe controlled test conditions, not a permanent guarantee against water entry. Always ensure the crown is fully pushed in or screwed down, if applicable, before exposure to moisture.

## Warranty + Support

For support, care questions, setting help, or warranty assistance, contact Griffith Watch Company through [griffithwatches.com](http://griffithwatches.com). Keep your order information and warranty documentation with this guide.

## Review Note

This customer-facing guide is prepared for product packaging and post-purchase support. Please verify final production specifications before bulk printing or fulfillment use.
