

# Field 42mm "Patton"

Care Instructions + Feature Guide | SKU: PATTON | Built for the life you live.

## Owner Guide

This guide covers the features, operation, and care of this Griffith field watch. It is designed for clear daily use, simple handling, and long-term enjoyment.

## Watch Specifications

Specification	Detail
Case Diameter	42mm
Lug-to-Lug	50mm
Case Thickness	13mm
Case Material	316L Stainless Steel
Movement	Seiko NH35 or Miyota/Citizen 8215 Automatic
Crystal	Impact-resistant hardened crystal
Strap Width	20mm
Strap / Bracelet	Leather strap

## Key Features

- Field-watch layout with bold Arabic numerals
- Automatic self-winding movement
- Manual wind capability
- Hacking seconds on NH35 configurations
- Luminous hands for low-light visibility
- Built for simple, durable everyday wear

## Movement + Operation

Topic	Instruction
Movement	Automatic three-hand movement with date, selected for reliability and daily wear.
Starting/Winding	Wind the crown clockwise approximately 15 to 25 turns before wearing. Normal wrist motion helps maintain power.
Setting the Date	Pull the crown to the first position and rotate gently until the correct date appears.
Setting the Time	Pull the crown to the second position, set the time, then push the crown fully back in.

Calendar Caution	Do not change the date during the changeover window, generally 9:00 PM to 3:00 AM.
------------------	--

## Care Instructions

- Avoid harsh chemicals, solvents, perfumes, and cleaning agents near the case, crystal, strap, and gaskets.
- Keep the watch away from strong magnetic fields, severe shock, and prolonged extreme temperatures.
- Wipe the case and crystal with a soft dry microfiber cloth after wear.
- Leather and suede straps should be kept as dry as possible; allow them to air dry naturally if damp.
- Rubber and stainless bracelets may be wiped down after sweat or water exposure, then dried thoroughly.
- Water resistance is not permanent and can be affected by impact, age, gasket wear, and crown position.
- Never operate the crown, chronograph pushers, or calendar correctors while the watch is wet or underwater.

## Water-Resistance Notes

Listed water resistance: As listed for this model. Water resistance ratings describe controlled test conditions, not a permanent guarantee against water entry. Always ensure the crown is fully pushed in or screwed down, if applicable, before exposure to moisture.

## Warranty + Support
